

AMERICAN CLAY
THE ORIGINAL EARTH PLASTER

AMERICAN CLAY WORKSHOP

Taught by Orit Yanai, American Clay Certified Plaster Artisan
November 15, 2008

Learn how to:

- Prepare and prime surfaces
- Mix and apply base coat through finish
- Blend pigments
- Apply sealers

Practice hands-on:

- Mix Loma (the 'rough finish' plaster)
- Apply first coat onto walls, including inside and outside corners
- Apply second coat (both Loma and Porcelina)
- Various application techniques for varying effects
- Apply sealers
- Touch up/repair
- Many tips which cannot be found on any website

Gain Professional Know-How:

- How to market American Clay to your clients
- How to bid an American Clay job
- How to contract for American Clay jobs

Workshop Date:

Saturday, November 15, 2008
9:00am-4:30pm

Registration:

Please call: (916) 458-0831

Deadline Friday, September 19

Space is limited to first 12 applicants

Cost \$299 at time of registration

Please bring:

- Stainless Steel Trowel (approximately 240-270 mm is best)
- Hawk (plaster tray)
- Work Clothes

Trowels and hawks, as well as all Plasters, Pigments, and other American Clay supplies are available for sale at the Workshop site.

Order American Clay to take with you from the Workshop!

- Be ready to start on your projects when you arrive home from the Workshop
- No shipping/delivery for materials picked up on Workshop day
- Advance order by September 19 is required so that we can have your order ready (except trowels and hawks, which can be purchased without advance order).
